A. List of illnesses that are most often treated with CRnT

CRnT is the therapy of choice for almost all chronic illnesses

As a causative form of treatment, CRnT is the therapy of choice for almost all chronic illnesses. Even in the case of sceptical, desperate and resigned patients, a healing - or an improvement bordering on a healing - can be achieved - even after years or even decades.

The reason for this is, that CRnT treats and eliminates the causes of chronification, the LD-areas. They are responsible therefore, that an illness will not heal up, like e.g. the same illness does in another person, and that it has become chronic.

Successful causative healing by CRnT therefore is closely related to the reason, why certain illnesses with the same symptoms in the beginning heal up, and others do not - and get often even chronic for the rest of one's life.

List of chronic and problem illnesses that are most often treated with CRnT

- Migraines, even the worst chronic forms (healing rate about 90%), almost all different and also worst forms of chronic cephalgia,
- chronic pain in all various areas of the body, e.g. back and all parts of the vertebra
- slipped discs of the lumbar, dorsal or cervical vertebra, or continuing pain after operations of those areas, chronic irritation of sciatic nerve,
- chronic pain because of "inflammation" of the hip-, or knee-joints, even in the case of "wear"-
- chronic pain of the shoulder-, elbow- or wrist joints,
- all different sorts of rheumatism,
- Trigeminus neuralgia
- basal cavity illnesses, continuing pain after operation of the nasal cavities or the lower jaw or teeth,
- Illnesses of the thyroid gland, concentration disorders
- sudden deafness, Vertigo, Menière disease, chronic inflammation of the middle ear
- tinnitus
- bronchial asthma, chronic bronchitis,
- intestinal diseases: gastritis, gastric ulcer, duodenal ulcer, irritable bowel syndrom, ulcerative colitis with intestinal haemorrhages, Crohn disease with intestinal fistulas,
- stomach and intestinal pains, functional disorders with intestinal colics or repeated occurring paralysis of the bowels,
- chronic gynaecological disorders, especially beginning or getting worse after delivery, chronic ovary inflammation, hormonal problems in the climacteric,
- vegetative dystonia, concentration disorders, circulatory disorders,
- disturbed circulation of the legs or of the head, hypertension, certain forms of angina pectoris,
- depression, depressive disturbances with panic attacks or heart trouble and palpitation of the heart
- illnesses of the skin , like neurodermitis etc.

Many diseases or disorders in adjoining areas or of similar character can also be cured with CRnT, also those disorders of which the doctors cannot really decide, which diagnosis they should make.

Patients can even often be saved an operation, e.g. in the case of wear to the hip or knee joint, to the thoracic vertebra, shoulder, elbow, wrist and ankle joint areas.

In such cases, the wear to the joint detected on the x-ray is usually *not the main cause of the pain experienced*, which is due instead to a disturbing influence from a completely different area of the nervous system, *which has previously also given rise to the organically visible damage*.

B. Alphabetic list of diagnoses & conditions, symptoms & signs of illnesses being successfully treated with CRnT

The reason for the fact, that CRnT can heal in so many different cases and sorts of illness

(for complete understanding read the chapter "The basic principles of CRnT")

Very often people, when becoming acquainted with CRnT are astonished, how many illnesses can successfully be treated with CRnT. At first view, as a result, it seems to them, that therefore it cannot be an enough specialized method for their special problem disease. As it mostly deals with "special chronic" or other "special problem" disease, they think, that "especially" for this "special illness", there must be one single method, only being "specialized" on their "special" illness.

Otherwise, they think, this method cannot help more than other general applications that they became acquainted with before in conventional medicine. Only at closer inspection and by more precise knowledge of the basis healing principles of CRnT they understand, that it therefore is the final solution for so many different diseases, because them all cannot be healed in a different, merely symptomatic way, but CRnT treats the "basic problem" of "problem diseases", which means treating the "basic causes" as the "basic problem" of all "problem diseases".

People since childhood are affected by usual thinking und considerations of conventional medicine. They know the usual way of diagnostics and putting a fix diagnose. But the diagnoses in conventional medicine take place mostly being based on the diagnostic findings of different symptoms, then being put together, resulting in a common known diagnosis. But such diagnosis is often only a latin term for naming a "typical compilation of symptoms".

Often, however, this results in the problem, that e.g. there are missing one or several of the expected signs or symptoms belonging to a assumed diagnosis - leading to a

sort of stopgaps called “syndromes”, e.g. “Diffuse syndrome similar to appearance of MS” (= multiple sclerosis). The origin of these kinds of conventional diagnoses is the symptom and organ related medicine with its according organ related diagnostics, and exclusion of organic cause.

This alphabetical list serves the purpose that every interested person can search for their health problem under the common used diagnoses or the symptoms, signs and conditions related to their diseases.

The added short notations to the listed diseases and conditions shall give a more precise definition concerning their special fields of problem or sort of appearance, in which CRnT can be successfully be applied.

The unique and essential effect of CRnT is the elimination of the deepest causes of illnesses and elimination of their worst complaints - or in many cases - of the complete health problem.

A healing - or an improvement bordering on a healing - can be achieved - even after years or even decades.

1. Alphabetical list of diagnoses and conditions

A

Abdominal Pain, continually repetitive
Abortion, Spontaneous (Miscarriage), repetitive occurrence of
Achalasia
Aches, Pain, Fever, according to precise diagnosis of basic illness
Acid Reflux (Gastroesophageal Reflux Disease (GERD)
Acne, certain cases of
Acute Pain (Chronic Pain), continually repetitive reoccurring
Acute Pancreatitis (Pancreatitis), concomitant to medication therapy
Adenoidectomy, continually repetitive pain problems after
Adenoids (Adenoids and Tonsils)
Adenoids and Tonsils, chronically repetitive inflammations of
ADHD (ADHD In Adults)
ADHD (Attention Deficit Hyperactivity Disorder (ADHD)
ADHD In Adults
Adhesive Capsulitis (Frozen Shoulder), pain conditions of
Aging (Senior Health), rash, as anti-aging medicine
Alcohol Abuse and Alcoholism, related health problems of
Alcohol Dependence (Alcohol Abuse and Alcoholism), related health problems of
Allergic Asthma (Asthma), Asthma fits
Allergic Cascade
Allergic Conjunctivitis (Pink Eye)
Allergic Conjunctivitis (Eye Allergy)
Allergic Rhinitis (Hay Fever)
Allergy, all different forms of, treating the original cause of why being allergic at all

Allergy, Eye (Eye Allergy)
Allergy, Food (Food Allergy)
Allergy, Insect (Insect Sting Allergies)
Alopecia, different forms of
Anal Itching, functional disorder
Angina
Ankle Pain and Tendinitis, chronic forms of
Ankylosing Spondylitis, painful states of
Anorexia Nervosa, concomitant to other treatment measures
Anovulation (Vaginal Bleeding), causative treatment on basis of functional disorders
Anserine Bursitis (Knee Bursitis), continually repetitive occurring
Antibiotic-Caused Colitis (Clostridium Difficile Colitis)
Anxiety (Panic Disorder), causative basic treatment of
Anxiety, Separation (Separation Anxiety)
Apophysitis Calcaneus (Sever Condition), continuous states of pain of
Appendectomy, continuous states of pain after
Appendicitis, chronically repetitive forms of
Arrhythmia (Irregular Heartbeat) in functional and hormonal disorders
Arteriosclerosis (Peripheral Vascular Disease), aggravating functional part of
Arteritis (Vasculitis)
Arthralgia (Arthritis), pain conditions of
Arthritis, pain and inflammatory conditions of
Arthritis In Children (Juvenile Arthritis), causal treatment of
Arthritis, Ankylosing Spondylitis (Ankylosing Spondylitis), pain conditions of
Arthritis, Degenerative (Osteoarthritis), pain conditions of
Arthritis, Juvenile (Juvenile Arthritis), causative anti-inflammatory treatment of
Arthritis, MCTD (Mixed Connective Tissue Disease)
Arthritis, Psoriatic (Psoriatic Arthritis), in certain cases
Arthritis, Reactive (Reactive Arthritis)
Arthritis, Reiters (Reactive Arthritis), causal treatment of
Arthritis, Rheumatoid (Rheumatoid Arthritis), causal treatment of
Asthma
Asthma in Children
Atherosclerosis (Peripheral Vascular Disease) concomitant functional part of
Automatic Behavior (Narcolepsy)

B

Baby Blues (Postpartum Depression)
Back Pain (Low Back Pain)
Bacterial Vaginosis, concomitant to medication therapy
Balance (Vestibular Balance Disorders), functional kinds of interferences of
Balanitis (Penis Disorders), concomitant to medication therapy
Baldness (Hair Loss), certain cases of
Bedwetting, as functional disorders
Belching (Intestinal Gas (Belching, Bloating, Flatulence), as functional disorders
Benign Essential Tremor (Tremor)
Benign Intracranial Hypertension (Pseudotumor Cerebri)
Benign paroxysmal positional vertigo (BPPV) (Vestibular Balance Disorders)

Benign Prostatic Hyperplasia
Benign Prostatic Hypertrophy (Benign Prostatic Hyperplasia)
Biceps Femoris Muscle (Hamstring Injury), healing up disturbances
Blackout (Fainting), certain cases, after exclusion of organic cause
Bladder Incontinence (Urinary Incontinence), functional forms of
Bladder Infection (Urine Infection), repetitively occurring of
Bladder Spasm (Overactive Bladder), functional disorder as
Blepharospasm (Dystonia)
Bloating (Intestinal Gas (Belching, Bloating, Flatulence) as functional disorders
Bloody Nose (Nosebleed), repetitive occurring
Bone Broken (Fracture), painful states or healing up disturbances after
BPH (Benign Prostatic Hyperplasia)
Broken Bone (Fracture), continuous pain or healing up disturbances after
Bronchitis, Chronic (Chronic Obstructive Pulmonary Disease (COPD))
Bursitis, continually repetitive occurrence and/or painful states after,
Bursitis Of The Elbow (Elbow Bursitis)
Bursitis Of The Hip (Hip Bursitis)
Bursitis Of The Knee (Knee Bursitis)
Bursitis, Calcific (Calcific Bursitis)
Bursitis, Shoulder (Shoulder Bursitis)

C

Calcific Bursitis, pain conditions of
Carpal Tunnel Syndrome
Cerebrovascular Accident (Stroke), states after
Chest Pain (Angina), repetitive, as prophylactic measure
Childhood Arthritis (Juvenile Arthritis), causative and anti-inflammatory treatment of
Children Asthma (Asthma in Children)
Cholecystectomy, continuous states of pain after
Cholecystitis (Gallstones), alternatively before operation
Cholelithiasis (Gallstones) in certain cases alternatively before operation
Chronic Ulcerative Colitis (Ulcerative Colitis)
Chronic Bronchitis (Chronic Obstructive Pulmonary Disease (COPD))
Chronic Cough
Chronic Fatigue Syndrome
Chronic Neck Pain (Neck Pain)
Chronic Pain, all kinds of
Chronic Pancreatitis (Pancreatitis), causative treatment of
Chronic Rhinitis
Circulation (Peripheral Vascular Disease)
Claudication
Claudication (Peripheral Vascular Disease)
Cluster Headaches
Coccydynia
Cold (Common Cold), continually repetitive, immune deficiency
Colic, functional
Colitis (Ulcerative Colitis)
Colitis, Crohn's (Crohn's Disease)

Complex Regional Pain Syndrome
Conjunctivitis (Pink Eye)
Conjunctivitis, Allergic (Eye Allergy)
Connective Tissue Disease
Constipation, chronic forms of
Contracture Of Hand (Dupuytren Contracture)
Cough, Chronic (Chronic Cough), after exclusion of organic cause
Cramps Of Muscle (Muscle Cramps),
Cramps, Menstrual (Menstrual Cramps)
Crohn Disease, Intestinal Problems (Inflammatory Bowel Disease)
Crohn's Colitis (Crohn's Disease)
CTD (Connective Tissue Disease)
CUC (Ulcerative Colitis)
Cumulative Trauma Disorder (Repetitive Motion Disorders (RMDs))
Curved Spine (Scoliosis), pain conditions of
Cystitis (Urine Infection), chronically repetitive

D

Deafness
Degenerative Arthritis (Low Back Pain), pain conditions of
Degenerative Arthritis (Osteoarthritis), pain conditions of
Degenerative Disc
Degenerative Joint Disease (Osteoarthritis), pain conditions of
Deglutition (Swallowing), functional
Depression, different kinds of
Depressive Disorder (Depression)
Diabetic Neuropathy, certain cases of
Diarrhea, depending on basic disease, treatable if functional
Disc (Degenerative Disc), disturbed regeneration and pain conditions of
Disc Herniation (Low Back Pain), disturbed regeneration and pain conditions of
Disc Herniation (Degenerative Disc)
Diverticulitis (Diverticulosis), continually attendant functional disorders of
Diverticulosis, continually attendant functional disorders of
Dizziness (Vestibular Balance Disorders), functional
Dry Eyes
Duodenal Ulcer (Peptic Ulcer)
Dupuytren Contracture
Dysfunctional Uterine Bleeding (Vaginal Bleeding), functional disorders
Dyslexia
Dysmenorrhea (Menstrual Cramps)
Dyspepsia
Dysphagia (Swallowing), functionally caused
Dysthymia (Depression)
Dystonia
Dystonia Musculorum Deformans (Dystonia)

E

Ear Ache (Otitis Media)
Ear Ache (Otitis Externa), continual reoccurrence of
Ear Cracking Sounds (Eustachian Tube Problems)
Ear Infection Middle (Otitis Media), continually reoccurring
Ear Ringing (Tinnitus)
Ear, Swimmer's (Otitis Externa), continually reoccurring
Eating Disorder (Anorexia Nervosa), beside different measures
Eating Disorder (Bulimia)
Eating, Binge (Binge Eating Disorder)
Eating, Emotional (Emotional Eating)
Eczema (Atopic Dermatitis), causal treatment of
EDS (Narcolepsy)
Elbow Bursitis, continually reoccurring
Elbow Pain
Eldercare (Senior Health), anti-aging medicine of
Emotional Disorders
Emotional Eating
Encephalitis and Meningitis, following continuous or repetitive disorders
Encephalomyelitis (Encephalitis and Meningitis) following health problems
Endometriosis
Eneuresis (Bedwetting)
Enteritis (Crohn's Disease)
Enuresis (Encopresis)
Epicondylitis (Elbow Pain), continually repetitive reoccurring
Epilepsy (Seizure), especially after head injuries
Epistaxis (Nosebleed), repetitive
Equilibrium (Vestibular Balance Disorders), continually reoccurring
Esophageal Reflux (Gastroesophageal Reflux Disease (GERD)
Esophagitis
Essential Tremor (Tremor)
Excessive Daytime Sleepiness (EDS) (Narcolepsy)
Excessive Sweating (Hyperhidrosis)
External Otitis (Otitis Externa), continually reoccurring
Eye Allergy
Eye Redness (Pink Eye)

F

Facial Nerve Problems, chronic or continually reoccurring
Fainting, continually reoccurring
Fear of Open Spaces (Agoraphobia)
Feet Sweating, Excessive (Hyperhidrosis)
Fibromyalgia
Fibrositis (Fibromyalgia)
Food Allergy
Fracture, following healing up problems or continuous pain conditions
Frozen Shoulder, continuous pain conditions, restricted movement

Functional Dyspepsia (Dyspepsia)
Gallbladder Disease (Gallstones), repetitive colics
Gallstones
Gas (Intestinal Gas (Belching, Bloating, Flatulence), functional disorder
Gastric Ulcer (Peptic Ulcer)
Gastroenteritis
Gastroesophageal Reflux Disease (GERD)
GERD (Gastroesophageal Reflux Disease (GERD))
GERD in Infants and Children
Gingivitis (Gum Disease)
Glaucoma, certain cases
Golfers Elbow (Elbow Pain), chronic or continually reoccurring

H

Hair Loss, certain cases
Hamstring Injury, healing up disturbances
Hand Sweating, Excessive (Hyperhidrosis)
Hard of Hearing (Deafness), certain cases of
Hay fever
Headache, all different sorts of chronic or continually reoccurring
Headache (Migraine Headache)
Headache, Spinal (Spinal Headaches)
Headache, Tension (Tension Headache)
Headaches in Children
Hearing Impairment (Deafness), certain cases
Hearing Loss (Deafness)
Heart Attack, continually reoccurring
Heartbeat Irregular (Arrhythmia (Irregular Heartbeat), functional disorders
Heartburn (Gastroesophageal Reflux Disease (GERD))
Herniated Disc (Low Back Pain), disturbed regeneration and pain conditions of
Herniated Disc (Degenerative Disc)
High Blood Pressure, on functional basis
Hip Bursitis, continually reoccurring
Hoarseness, chronic, after exclusion of organic cause
Hyperhidrosis
Hypertension (High Blood Pressure), on functional basis
Hypomenorrhea (Vaginal Bleeding), in functional disorders
Hypotension (Low Blood Pressure), on functional basis

I - J - K

Ileitis (Crohn's Disease)
Ileocolitis (Crohn's Disease)
Incontinence of Urine (Urinary Incontinence), functional
Inflammatory Bowel Disease: Intestinal Problems
Intermittent Claudication (Claudication)
Intestinal Gas (Intestinal Gas (Belching, Bloating, Flatulence), functional

Irritable Bowel Syndrome, functional disorder
Ischial Bursitis (Hip Bursitis), continually reoccurring
Joint Inflammation (Arthritis), continuous or continually reoccurring
Joint Pain (Arthritis), all kinds, continuous or continually reoccurring
JRA (Juvenile Arthritis)
Jumpers Knee (Knee Bursitis)
Juvenile Arthritis
Knee Bursitis, continually reoccurring
Knee Pain, continuous or continually reoccurring

L

Lateral Femoral Cutaneous Nerve Syndrome (Meralgia Paresthetica)
Leg Cramps (Muscle Cramps)
Lice (Head Lice)
Lightheadedness (Fainting), continually reoccurring
Loss Of Consciousness (Fainting), continually reoccurring
Low Back Pain, continuous or continually reoccurring
Low Blood Pressure, functional cause
Lumbar Radiculopathy (Low Back Pain), continuous or continually reoccurring pain
Lumbar Radiculopathy (Degenerative Disc), continuous problems
Lumbar Spinal Stenosis (Degenerative Disc), continuous problems
Lumbar Strain (Low Back Pain), continuous or continually reoccurring
Mania (Depression)
Manic Depressive (Depression)
Manic Depressive (Bipolar Disorder)
Meniere Disease
Meningitis (Encephalitis and Meningitis), following health problems
Menopause, functional-hormonal disorders
Menopause, Premature (Premature Menopause), functional-hormonal disorders
Menorrhagia (Vaginal Bleeding), hormonal disorders
Menstrual Cramps
Meralgia Paresthetica
Metrorrhagia (Vaginal Bleeding), functional-hormonal disorders
Migraine (Migraine Headache), all different sorts of
Miscarriage, repetitively occurring
Mucous Colitis (Irritable Bowel Syndrome)
Muscle Cramps, in functional disorders
Muscle Pain, in functional disorders
Myocardial Infarction (Heart Attack), following health problems
Myofascial Pain (Muscle Pain)

N

Narcolepsy
Nausea and Vomiting
Neck Injury (Whiplash), following continuous or continually reoccurring pain
Neck Pain, continuous or continually reoccurring

Neck Sprain (Whiplash), following continuous or continually reoccurring pain
Neck Strain (Whiplash), following continuous or continually reoccurring pain
Nerve (Peripheral Neuropathy), continuous or continually reoccurring problems
Neurocardiogenic Syncope (Fainting)
Neurodermatitis (Atopic Dermatitis)
Neuropathic Pain
Neuropathy (Peripheral Neuropathy)
Nocturnal Eneuresis (Bedwetting)
Nose Inflammation (Chronic Rhinitis)
Nosebleed, continually reoccurring

O

Obesity (Weight Loss), certain cases
Obsessive Compulsive Disorder (OCD), certain cases
Occupational Therapy for Arthritis (Arthritis Physical and Occupational Therapy)
OCD (Obsessive Compulsive Disorder (OCD), certain cases
Osteoarthritis, continuous or continually reoccurring pain conditions
Osteoporosis, continuous or continually reoccurring pain conditions
Otitis Externa, continually reoccurring
Otitis Media, continually reoccurring
Overactive Bladder (Urinary Incontinence), functional disorder

P

Pain (Aches, Pain, Fever), continuous or continually reoccurring
Pain (Chronic Pain), continuous or continually reoccurring
Pain In Muscle (Muscle Pain), continuous or continually reoccurring
Pain Neck (Neck Pain)
Pain, Ankle (Ankle Pain and Tendinitis), continually reoccurring
Pain, Elbow (Elbow Pain)
Pain, Knee (Knee Pain)
Pain, Nerve (Neuropathic Pain)
Pain, Tailbone (Coccydynia)
Pain, Whiplash (Whiplash)
Pancolitis (Ulcerative Colitis) and concomitant complaints
Pancreatitis, following health problems
Panic Attack (Panic Disorder)
Panic Disorder
Pediatric Arthritis (Juvenile Arthritis)
Peripheral Neuropathy
Peripheral Vascular Disease
Pharyngitis (Sore Throat)
Pink Eye
Pneumonia, following health problems
Polymenorrhea (Vaginal Bleeding) functional-hormonal disorders
Polymyalgia Rheumatica
Post Menopause (Menopause), functional-hormonal disorders

Postpartum Depression
Postpartum Thyroiditis (Thyroiditis)
Posttraumatic Stress Disorder
PPD (Postpartum Depression)
Pregnancy, following start of health disorders and (aggravation of) illnesses
Premature Menopause, functional-hormonal disorders
Premenstrual Syndrome
Prostate Inflammation (Prostatitis), chronic
Prostatitis, chronic
Prostatodynia (Prostatitis), chronic
Pruritus Ani (Anal Itching)
Psoriatic Arthritis
PTSD (Posttraumatic Stress Disorder)
Pyelonephritis (Urine Infection), continually repetitive occurrence

R

Raynaud's Phenomenon
Reactive Arthritis, inflammation and pain conditions
Reflex Sympathetic Dystrophy (Complex Regional Pain Syndrome)
Reflex Sympathetic Dystrophy Syndrome
Reflux Laryngitis
Regional Enteritis (Crohn's Disease)
Restless Leg Syndrome
Rheumatoid Arthritis, inflammation and pain conditions
Rheumatoid Disease (Rheumatoid Arthritis)
Rhinitis (Chronic Rhinitis)
Ringing In The Ear (Tinnitus)
RSDS (Reflex Sympathetic Dystrophy Syndrome)
RSDS (Complex Regional Pain Syndrome)
Ruptured Disc (Degenerative Disc), regenerative and pain problem

S

Sciatica, chronic or continually reoccurring pain conditions
Sciatica (Degenerative Disc)
Scoliosis, chronic or repetitively occurring states of pain
Scoliosis (Low Back Pain)
Seizure, especially after head injuries
Separation Anxiety, state of heightened sympathetic tension
Seronegative Spondyloarthropathy (Ankylosing Spondylitis), pain conditions
Seronegative Spondyloarthropathy (Psoriatic Arthritis)
Seronegative Spondyloarthropathy (Reactive Arthritis)
Shell Shock (Posttraumatic Stress Disorder)
Shoulder Bursitis, remaining pain problems after healing up
Shoulder Pain (Shoulder Bursitis)
Sinusitis, chronic or continually repetitive occurrence
Sneezing (Hay Fever), chronic

Sore Throat, chronic
Spasmodic Torticollis (Dystonia), chronic or continually reoccurring
Spastic Colitis (Irritable Bowel Syndrome)
Spastic Colon (Irritable Bowel Syndrome)
Spinal Headaches, chronic and continually reoccurring
Spinal Stenosis (Low Back Pain), certain case
Spine Curvature (Scoliosis), chronic pain conditions
Spondylitis (Ankylosing Spondylitis), chronic or continually reoccurring pain
Spondyloarthropathy (Ankylosing Spondylitis)
Spondyloarthropathy (Psoriatic Arthritis)
Spondyloarthropathy (Reactive Arthritis)
Spondylolisthesis (Low Back Pain), chronic or continually reoccurring pain
Spondylolysis (Low Back Pain)
Spontaneous Abortion (Miscarriage), repetitive occurring
Sprain, Neck (Whiplash), following long-term pain conditions
Stenosing Tenosynovitis (Trigger Finger)
Stomach Ache (Abdominal Pain), in case of gastritis, gastric ulcer or functional
Stomach Pain (Abdominal Pain)
Stomach Ulcer (Peptic Ulcer), chronic inflammation and pain conditions
Strain, Neck (Whiplash), following long-term pain conditions
Stress, state of continuously heightened sympathetic tension
Stress (Posttraumatic Stress Disorder)
Stress and Heart Disease, continually heightened sympathetic tension
Stroke, following health disorders
Stroke-like Episodes (MELAS Syndrome), preventative therapeutic measures
Sudecks Atrophy (Reflex Sympathetic Dystrophy Syndrome)
Superficial Thrombophlebitis, reoccurring
Surgical Menopause (Premature Menopause (Medical Procedural Causes))
Swallowing Problems (Swallowing), functional disorder
Swimmer's Ear (Otitis Externa), reoccurring
Syncope (Fainting), continually repetitive

T

Tailbone Pain (Coccydynia)
Tarsal Tunnel Syndrome (Carpal Tunnel Syndrome)
Temporal Arteritis (Polymyalgia Rheumatica), chronic complaints
Temporary Loss Of Consciousness (Fainting)
Temporomandibular Joint Disorder, repetitively occurring
Temporomandibular Joint Syndrome (Temporomandibular Joint Disorder)
Tendinitis Shoulder (Rotator Cuff), chronic pain and painful restriction
Tendinitis, Rotator Cuff (Rotator Cuff)
Tennis Elbow (Elbow Pain) chronic pain and painful restriction
Tension Headache, chronic
Terminal Ileitis (Crohn's Disease)
Thoracic Disc (Degenerative Disc), regeneration and pain problems
Thrombophlebitis, reoccurring
Thyroiditis
TIA (Stroke), following health disorders

Tics (Tourette Syndrome)
Tinnitus
TMJ (Temporomandibular Joint Disorder), repetitive occurrence
Tonsillectomy, persistent repetitive inflammations after operation
Tonsils (Adenoids and Tonsils), reoccurring inflammation
Tonsils and Adenoids (Adenoids and Tonsils)
Toothache, without fix organic reason
Torsion Dystonia (Dystonia)
Torticollis (Dystonia), chronically persistent or continually reoccurring
Transient Ischemic Attack (Stroke), following health disorders
Trauma (Posttraumatic Stress Disorder)
Tremor, continually heightened sympathetic tension
Trigeminal Neuralgia
Trigger Finger
Trochanteric Bursitis (Hip Bursitis), complaints after healing up
Tunnel Syndrome (Carpal Tunnel Syndrome)

U

Ulcer (Peptic Ulcer), chronic inflammation and pain conditions
Ulcerative Colitis, chronic inflammation and pain conditions
Ulcerative Colitis, Intestinal Problems (Inflammatory Bowel Disease)
Ulcerative Proctitis (Ulcerative Colitis)
Urinary Incontinence, functional disorder
Urticaria (Hives), repetitive occurrence

V

Vagal Reaction (Fainting), functional disorder
Vaginitis, functional disorder
Vaginitis (Yeast Vaginitis)
Vasodepressor Syncope (Fainting)
Vasovagal (Fainting)
Vertigo (Vestibular Balance Disorders), continually repetitive
Vestibular Balance Disorders, continually reoccurring
Vestibular migraine (Vestibular Balance Disorders), continually repetitive
Vestibular neuronitis (Vestibular Balance Disorders)

W, X, Y, Z

Whiplash, following long-term pain conditions
Wrist Tendinitis (De Quervain's Tenosynovitis)

2. Alphabetical list of symptoms and signs

CRnT often treats illnesses, that most often concern persons already for a long duration of time. So the symptoms and signs have mostly lead to various and repetitive diagnostic measures and lead to a fix diagnosis.

However, the continually repetitive reappearance of symptoms and signs of the illnesses permanently disturb the well-being of the patients.

This “list of symptoms and signs” presumes, that in the case of their appearance they occur not for the first time, but after

1. exclusion of a bad organic cause,
2. a fix settled diagnosis due to organic findings or
3. after exclusion of organic cause as functional disorders of the autonomic nervous system

A

Abdominal Pain, continually repetitive

Ache, Back (Back Pain)

Ache, Ear (Earache)

Ache, Tooth (Toothache), without organic cause

Acid Indigestion (Heartburn)

Acid Reflux (Heartburn)

Alopecia (Hair Loss), certain cases of

Anal Itching

Anorexia (Loss of Appetite), certain cases of

Anxiety

Appetite, Loss of (Loss of Appetite), after excluding organic causes

Arthralgia (Joint Pain), even in the case of wear

Arthralgia, Elbow (Elbow Pain)

Arthralgia, Knee (Knee Pain)

Arthralgia, Shoulder (Shoulder Pain)

B

Back Pain

Balance (Dizziness), continually repetitive disorders

Baldness (Hair Loss) certain cases of

Beat (Fatigue and Tiredness)

Belching (Gas)

Belly Pain (Abdominal Pain), continually repetitive

Blackout (Fainting), certain cases of

Bladder Incontinence (Incontinence, Urine), functional disorder

Bloating (Gas)

Blue (Depression), continuous state

Bottom Itch (Anal Itching)

Breast Pain, after excluding organic causes

Breathing (Shortness of Breath), after excluding organic causes
Bruising, Easy (Easy Bruising)
Bummed Out (Depression), continuous state
Burning Urination, after excluding organic causes

C

Cachexia (Weight Loss), after excluding organic causes
Cephalgia (Headache), chronic
Cervical Pain (Neck Pain)
Chest Pain, after excluding organic causes
Coccydynia
Cold Feet
Cold Fingers
Conjunctivitis (Pink Eye)
Constipation, chronic, also if called "heritable"
Contusion (Easy Bruising), certain following complaints
Convulsions (Seizures), certain long-term cases
Cotton Mouth (Dry Mouth)
Cough, chronic
Cramps, Abdominal (Abdominal Pain), continually repetitive
Cramps, Menstrual (Menstrual Cramps)
Cramps, Muscle (Muscle Cramps)

D

Deafness (Hearing Loss)
Dental Pain (Toothache), in case of non-organic findings
Depression, certain kinds of
Diarrhea
Dizziness, continually repetitive
Drowsiness (Fatigue and Tiredness)
Dry Eye
Dry Mouth
Dry Vagina (Vaginal Dryness)
Dysmenorrhea (Menstrual Cramps)
Dyspareunia (Vaginal Pain)
Dyspepsia
Dyspnea (Shortness of Breath), long-term forms of
Dysuria (Burning Urination)

E

Ear Ringing (Ringing in Ears)
Earache
Edema (Leg Swelling), after organic clarification
Elbow Pain

Epilepsy (Seizures), certain cases, e.g. after head injuries
Epistaxis (Bloody Nose)
Equilibrium (Dizziness),
Erectile Dysfunction (Impotence), certain cases of
Eye Pain
Eye Redness (Pink Eye)
Eye, Dry (Dry Eye)
Eye, Watery (Watery Eye)

F

Fainting, continually repetitive
Fat, Body (Weight Gain), certain cases of
Fatigue and Tiredness
Fear Syndrome (Anxiety)
Feeling Tired (Fatigue and Tiredness), continuous state
Feet, Cold (Cold Feet), long-term state
Fingers, Cold (Cold Fingers), long-term state
Flatulence (Gas)
Fluid Retention (Weight Gain)
Food Aversion (Loss of Appetite), certain cases
Foot Swelling (Leg Swelling)
Frequent Urination, functional disorder

G

Gain, Weight (Weight Gain)
Gas
Gland Swelling (Swollen Glands), after organic clarification
Golfer's Elbow (Elbow Pain)
Gut Pain (Abdominal Pain)

H

Hair Loss, certain cases of
Hands, Cold (Cold Fingers), long-term states of
Headache
Hearing Loss
Heart Palpitations (Palpitations), in "functional" disorders
Heartburn
Hematochezia (Blood In Stool) in cases of diagnosed ulcerative Colitis
Hoarseness, chronic

I, J, K

Impotence, certain cases of
Incontinence, Urine, after exclusion of organic causes
Indigestion (Dyspepsia), long-term problems of
Indigestion, Acid (Heartburn)
Intention Tremor (Tremor) , certain cases of
Itch (Itching), certain cases of
Itching
Itching of the Anus (Anal Itching)
Itchy (Itching)
Joint Pain
Knee Pain

L

Lacrimation (Watery Eye)
Laryngeal Voice (Hoarseness), after exclusion of organic cause
Leg (Restless Leg Syndrome)
Leg Cramps (Muscle Cramps)
Leg Swelling, certain cases of
Leg, Restless (Restless Leg Syndrome)
Lightheadedness (Fainting)
Loose Stool (Diarrhea), in functional disorders, depending on illness
Loss of Appetite, certain cases of
Loss Of Control Of Urine (Incontinence, Urine), certain cases of
Loss of Hair (Hair Loss), certain cases of
Loss of Hearing (Hearing Loss), certain cases of
Loss of Weight (Weight Loss), certain cases of
Lower (Low) Back Pain (Back Pain)
Lymphadenopathy (Swollen Glands), only according organic diagnosis

M

Mammalgia (Breast Pain), after exclusion of organic cause
Mastalgia (Breast Pain)
Mastodynia (Breast Pain)
Menorrhagia (Vaginal Bleeding), after exclusion of organic cause
Menstrual Cramps
Menstruation (Vaginal Bleeding), functional disorders
Mouth Dry (Dry Mouth)
Muscle Cramps

N

Nausea, depending on illness

Neck Pain

Noise, Ear (Ringing in Ears)

Non-acid Dyspepsia (Dyspepsia), long term problems of

Nosebleed (Bloody Nose)

Numbness Fingers

Numbness Toes

O

Odor, Vagina (Vaginal Odor), depending on organic diagnosis

Ophthalmalgia (Eye Pain)

Ophthalmodynia (Eye Pain)

Overactive Bladder (Incontinence, Urine), functional disorder

P

Pain, all forms of, after exclusion of organic cause

Pain, Abdomen (Abdominal Pain), continually repetitive

Pain, Back (Back Pain)

Pain, Belly (Abdominal Pain)

Pain, Breast (Breast Pain), after exclusion of organic cause

Pain, Cervical (Neck Pain)

Pain, Chest (Chest Pain)

Pain, Chest with Breathing (Pleurisy)

Pain, Dental (Toothache)

Pain, Ear (Earache)

Pain, Elbow (Elbow Pain)

Pain, Eye (Eye Pain)

Pain, Gut (Abdominal Pain)

Pain, Head (Headache)

Pain, Joint (Joint Pain)

Pain, Knee (Knee Pain)

Pain, Menstrual (Menstrual Cramps)

Pain, Neck (Neck Pain)

Pain, Shoulder (Shoulder Pain)

Pain, Tailbone (Coccydynia)

Pain, Throat (Sore Throat)

Pain, Tooth (Toothache)

Pain, Vagina (Vaginal Pain)

Palpitations, as functional disorders

Paresthesia, Fingers (Numbness Fingers)

Paresthesia, Toes (Numbness Toes)

Period (Vaginal Bleeding)

Pharyngitis (Sore Throat)

Pleurisy
Poor Appetite (Loss of Appetite)
Postural Tremor (Tremor)
Pruritic (Itching)
Pruritis (Itching)
Pruritis of the Anus (Anal Itching)
Pyrosis (Heartburn)

R

Rectal Itching (Anal Itching)
Reflux, Acid (Heartburn)
Rest Tremor (Tremor) continuously heightened sympathetic tension
Restless Leg Syndrome
Ringing in Ears, constant

S

Seizures, especially after head injuries
Shakes (Tremor), heightened sympathetic tension
Shortness of Breath, functional disorder
Shoulder Pain, chronic or continually reappearing
Sick to Stomach (Nausea), without organic cause
Sore Throat, chronic
Stomach Ache (Abdominal Pain)
Stomach Pain (Abdominal Pain)
Stomach Upset (Dyspepsia)
Stool, Bloody (Blood In Stool), with ulcerative colitis
Stool, Loose (Diarrhea), functional disorder
Swollen Foot (Leg Swelling)
Swollen Glands, certain cases
Swollen Leg (Leg Swelling)
Syncope (Fainting), repetitive occurring

T

Tailbone Pain (Coccydynia), chronic or continually repetitive
Tearful Eye (Watery Eye), functional disorder
Tennis Elbow (Elbow Pain) continually reoccurring
Throat Pain (Sore Throat), chronic
Tingling Fingers (Numbness Fingers)
Tingling Toes (Numbness Toes)
Tinnitus (Ringing in Ears)
Tiredness (Fatigue and Tiredness), long-term state
Toe Numbness (Numbness Toes)
Toe Tingling (Numbness Toes)
Toothache
Tremor, heightened sympathetic tension

Tussis (Cough), chronic

U

Unsteadiness (Dizziness), reoccurring

Upset Stomach (Dyspepsia)

Urinary Incontinence (Incontinence, Urine), functional disorder

Urinating Frequently (Frequent Urination), functional disorder

V

Vaginal Bleeding, functional disorders

Vaginal Dryness

Vaginal Odor

Vaginal Pain, continuous or reoccurring

Vertigo (Dizziness), continually reoccurring

Vomiting (Nausea)

W, X, Y, Z

Watery Eye, functional disorder

Weight Gain, certain cases

Weight Loss, certain cases

Wiped Out (Fatigue and Tiredness), long-term state

Woozy (Dizziness) continually reoccurring

Worry (Anxiety), heightened sympathetic tension

Xerophthalmia (Dry Eye), functional disorder

Xerostomia (Dry Mouth), chronic
